### Happenings in and Around Frank

J. Miller went to Calgary on Tuesday to attend the Stampede.

The school board are still asking another teacher to fill the vacancy created by Miss Mathew.

Rev. W. T. Young returned on Thursday from Calgary. He had been attending District meeting.

Mr. and Mrs. C. Richardson went up to Calgary on Sunday night to attend the frontier days celebration.

Rev. W. T. Young will conduct service at the Hillcrest church at 4 p.m. on Sunday next, and every Sunday thereafter.

Mr. MacKay, our school principal, has returned from an extended holiday in the east and has re-entered upon his duties.

The farewell ball given at the Rocky Mountain Sanatorium on Friday night was largely attended and the affair was most enjoyable.

Mr. Chas. Viret, manager of the Sanatorium hotel, left for Calgary on Saturday last, where he is to take charge of the Sherman hotel. Mr. Viret retired from the management of the hotel on the 15th.

The Presbyterians have given over the Hillcrest mission work to the Methodists in exchange for the Cowley mission, and service was held there on Sunday evening last by the Rev. W. T. Young, of Frank.

T. J. Tomlin, or some time clerk at the Rocky Mountain Sanatorium, has received appointment to succeed C. Viret as manager of the hotel, and assumes charge on September 15th.

Many were surprised on Saturday last to find that the current rumor, which had done much to stir the efficient management of A. C. Beach, was being moved to Blairmore. There are numerous rumors floating, one to the effect that Mr. Beach was being thrown out of a job without forwarding anything that some party here of the Pass who had never done anything for the public service, and whose ability and qualifications were never better than those of Mr. Beach, would be the latter's successor in office at Blairmore, etc., etc. In any case no one can say but that the service rendered by Mr. Beach was always honest and efficient and should entitle him to a substantial annual stipend in his few remaining years.

### Hillcrest Happenings

Mr. Frank Smith left Hillcrest on Saturday evening last for Calgary, where he is paying a visit to some friends there. He will also be a Stampede visitor.

The C.P.R. have a gang busy in the locality of Hillcrest just now repairing and fixing up the tracks and culverts for the winter. They are replacing the old wooden culvert between the Frank yards and the slide with a concrete structure, which work is practically completed.

For the past week the Crown's Nest Pass has been experiencing the most disagreeable weather. For several days the sun has not been seen at all and the drizzling rain and cutting wind did not improve matters at all. We are all living in hopes of having a real summer at some time or another, as we were entirely missed in that respect this season.

A party composed of Mrs. McGowan of Frank, Miss Armstrong of Hillcrest, Mr. Berry of Frank and Messrs. Hughes and Bell of Passburg took a trip to the South Fork on Sunday last with the intention of spending a day or so fishing. The rainy weather made them alter their arrangements however and they returned to town the same day they set out.

Messrs. Adams, Barber and Wallen were out for a few days hunting this week, leaving Hillcrest on Saturday evening for Byron Creek and returning Tuesday morning. Several reports have reached town that bear are plentiful in that locality and those sportsmen went out to investigate. On account of the

very unpleasant weather they were unable to get around as much as they had intended, and were forced to return to camp empty-handed. During their trip it was raining or falling pretty much the whole time and the inclement weather experienced is probably the only reason that for the first time since the hunters returned to civilization they met at least one animal to their credit.

A. Wicks, the C.P.R. coal passer here, leaving Hillcrest at the end of the week, and will be accompanied by J. Smith of the Cooperative Society here. They are leaving for Vancouver where it is their intention to take the boat for Montreal. Mr. Wicks' departure is deeply regretted by all interested in the fortunes of the Hillcrest football club for a full back he had no equal in the Pass. Hillcrest people wish these two adventures all property in their new life.

The coal company received another two car loads of machinery from the West last week, containing motors for the pump and engine for their new power, respectively. They are now progressing at the development work of the pump and engine employed by the number of men employed on the site, which has been the beginning of the pump and engine work. The output is increasing month by month and the success of this is felt by all in town, particularly the tradespeople.

A dance was held in the Union hall at Hillcrest on Saturday last, under the auspices of the local union. A large number took advantage of the fine dance held there for two or three months, and all report a very enjoyable time. The music was furnished by the Hillcrest orchestra, and was first-class in every respect. This is the first time that the newly formed orchestra has been called on to do real work, and their exhibition was all the more pleasing on this account.

The fight held at Bellevue on Labor Day attracted a large crowd of visitors from Hillcrest, and all report the scrap as the best that has been seen in The Pass for many a long day. As the fighting was in this part of the province, the local crowd was not so numerous as the previous ones, but the fight was very exciting. The two fighters were both very good, and the fight was very close. The crowd was very large, and the fight was very exciting.

The dangerous state of the bridge between Hillcrest and the town of Hillcrest is causing much anxiety among the residents of the town. The bridge is in a very bad state of repair, and it is feared that it may collapse at any time. The residents of the town are very anxious to have the bridge repaired, and they are doing all they can to help the town in this regard.

John C. Jones, the vice-president of the C.P.R. of the United States, and former of America and the president of the Alberta Federation of Labor, formerly the secretary of the former organization in Hillcrest, is in town for a few days on combined business and pleasure. The pleasure part of his visit consists entirely in his shaking hands with his numerous friends and acquaintances in Hillcrest, for he is an exceedingly busy man just present. He is leaving town in a few days for Galt, Ont., where he will attend a meeting of the trades and labor organizations of the whole of Canada.

No acceptance of the challenge issued by the Hillcrest football club has yet been received. The big smoking concert to be held on the occasion of the presentation of the cup and medals is already being looked forward to. At the present writing we are unable to say just when this event will take place, but the probability is that it will be on either the 14th or the 17th inst. The league committee are busy selecting an appropriate dress for the boys, and it is up to all in town to turn out to the evening and show that their winning the honour for Hillcrest is appreciated by all and that the town is backed by the good wishes of every one in Hillcrest.

### Here and There

The C.P.R. bridge crossing the South Fork river near Cowley is nearing completion.

Rumor has it that Rev. Neil McNeill, formerly bishop of St. George's, Newfoundland, late archbishop of Vancouver, and at present archbishop of Toronto, will be the next Canadian cardinal.

The Coleman public school opened last week with the following staff in charge: G. McDonald, principal; Miss J. Hume, vice-principal; Misses L. E. Woodhouse, E. A. MacArthur, E. Paul, A. W. Ball and G. McDonald.

### Happenings in and Around Bellevue

Misses Rogers and Perry are at the Stampede.

Mr. and Mrs. Turner, of Nova Scotia, have settled here.

George Davis and family will move to Fernie on Friday.

Miss Connolly of Spring Creek is visiting in town this week.

Chas. O'Brien is doing some soap-box oratory around town.

Rev. W. T. Young, of Frank, was a visitor in the camp on Thursday.

Robert Connolly is visiting Calgary and taking in the Stampede.

A grand concert will be given in the Methodist church on Friday.

The Catholic priest from Blairmore held Mass in the school house on Sunday morning.

Mr. Green, of the West Canadian Collieries at Blairmore, was up to the light on Labor Day.

Mrs. James arrived home on Monday night quite sick, and is now under the Doctor's care.

The Bellevue band played at the Presbyterian church social at Blairmore on Saturday night.

Next Sunday evening the Rev. Mr. Irwin will speak on "How to Get Religion Without Being Superstitious."

Will Chappell's "Queen of the Woods" maintained its record in Hosmer on Labor Day by carrying off two first prizes.

C. M. O'Brien leaves for the Pacific coast this week, where he will carry on propaganda work for the Socialist labor party.

Gill Collins and Mike Kilday went on a fishing expedition to South Fork on Labor Day and returned with a good catch.

Adam Lorimer went up to Fernie on Sunday to conduct the memorial service for the late General Booth in the Salvation Army of that place.

A fight which occurred in the bar of the Southern Hotel on Monday evening caused the police to request the early closing of the bar, which was promptly complied with.

Miss Doris Bateman was attacked by a dog on Monday night and had her clothes badly torn, but she escaped with a few scratches. The dog will probably be shot.

The Bellevue band gave a grand dance in the Socialist hall on Labor Day evening. A large crowd attended and a very pleasant time was spent. The Hillcrest orchestra supplied the music.

Fred Padgett, Ernest Fisher and Arnold Varley went out shooting on Labor Day. They returned with one squirrel. It took fifteen charges of buckshot to kill it. Better try failing next time.

Few, if any medicines have met with Colic, Cholera and Diarrhoea. The remarkable cures of Colic and Diarrhoea, which it has effected in almost every neighborhood have given it a wide reputation. For sale by all dealers.

At the district meeting of the Methodist church held at Clareholm last week, Rev. W. H. Irwin was delegated to proceed to Toronto in the interest of missionary work in the Pass, and to acquire financial aid for the carrying on of the work.

The Methodist church have taken over the Presbyterian church work at Hillcrest. For the time being the services will be conducted every Sunday afternoon at four o'clock under the direction of the Rev. W. T. Young. An effort is being made to organize a choir and the Hillcrest people are looking forward to a big winter in church activities.

The implicit confidence that many people have in Chamberlain's Colic, Cholera and Diarrhoea Remedy is

founded on their experience in the use of that remedy and their knowledge of the many remarkable cures of colic, diarrhoea and dysentery that has effected. For sale by all dealers.

W. J. Cole, manager and secretary of the Bellevue football team, received a notice on Saturday that Michel had protested the game played between Michel and Bellevue teams on Saturday, August 24th, when the latter team played a draw with Michel and won the Brewery cup. The chief grounds for the protest seemed to be that the game was called before that time was up.

A large crowd witnessed the boxing contest on Labor Day between Freddie Beale and Louis Britton. All pronounced it an excellent exhibition of the manly art. As was expected Beale got a clear decision, knocking his opponent out in the sixth round. Quite a number were up from the other camps to take in the fight. The preliminary was also a splendid exhibition.

## A FINE LITTLE OF HEALING

BALT RHEUM OF TEN YEARS  
STANDING HEALING  
BY MAGIC

Hands Cracked, so Could not Work

Cures Effectively

DR. CHASE'S OINTMENT

It does not take long to get the  
Chase's Ointment to prove its  
healing power. A single night is  
often sufficient to produce the most  
startling results.

Internal treatment for skin dis-

orders by Dr. Chase's Ointment to

the skin and relief is obtained

almost immediately. Gradually

the skin has up and disappear. Here

are two letters which will interest

you.

Mrs. Chas. Obit Hayslock, Ple-

ascent, N.W., writes: "I was a

sufferer from Bait Rheum for ten

years, and had about despaired of

ever being cured, so many treat-

ments had failed. Finding of the

wonderful cures effected by Dr.

Chase's Ointment, I purchased a

box, and was entirely cured by eight

days. I want to express my grati-

tude to Dr. Chase's Ointment, and

to recommend it to all sufferers."

Onl-

writes: "For years I was troubled

with my hands cracked and dis-

figing so much that I could hardly do

any work."

I got some of Dr. Chase's

Ointment, and happily find that one

or two applications of name to the

cracked parts made them so soft

and pliable that I have been able

to have no trouble since using the

ointment for some time.

Dr. Chase's Ointment, sold at a box, at

all dealers, or Edmanston, Bates &

Co., Limited, Toronto.

The Cool Stranger

Business was brisk in the village

store when the stranger entered.

Any of you drive in a trap? he

asked.

Yes, I did, said Partner Turpin

cheerfully.

Gray horse, and an old lady, said

that's right.

Can she manage him all right, said

the stranger.

She said, "I don't know, replied Tur-

pin, my wife drove that horse over

since we have a 3-year-old horse.

That's all right, then, said the

stranger. I suppose you will be

able to manage him, said the

stranger, my wife drove that horse over

since we have a 3-year-old horse.

That's all right, then, said the

stranger. I suppose you will be

able to manage him, said the

stranger, my wife drove that horse over

since we have a 3-year-old horse.

That's all right, then, said the

stranger. I suppose you will be

able to manage him, said the

stranger, my wife drove that horse over

since we have a 3-year-old horse.

That's all right, then, said the

stranger. I suppose you will be

able to manage him, said the

stranger, my wife drove that horse over

since we have a 3-year-old horse.

That's all right, then, said the

stranger. I suppose you will be

## A Double-Barreled Escape

Miners are among the most heroic

people in the world. Danger is

ways before them, and they are

schooling to believe that at

any time they may be called

to die. The result of this is

that they are unhesitatingly

ready to die.

In one of the mines of Pinery

there was a cave in which

prisoned a miner named Jack

Thompson. The accident happened on

Friday afternoon, and the fellow

was not seen again for three

months. Therefore all house-

keepers should commence using

WELSON'S

FLY PADS

early in the season, and thus off

a large proportion of the summer

crop.

Examination Time

The school-examiner was sure

Jones was cheating. Twenty times

he pulled out his watch and

examined it closely.

Fearful the master, being your watch

to me! Jones, reluctantly handed

over the timepiece. The

examiner found it was a

cheap, common watch.

He said: "This is a

cheap, common watch. It is

not a good watch. It is

not a good watch. It is

not a good watch. It is

W. J. Bartlett, Proprietor.

Bellevue, Alta., Fri., Sept. 6, 1912

**Labor Day**

It is some twenty years since the first Monday in September was set aside as a legal holiday in Canada. The practice was adopted from the United States.

It owes its origin to the Knights of Labor, an organization which was very active in the eighties but which has sunk into obscurity of recent years, largely the result of dissensions in its ranks which led to the formation of the American Federation of Labor.

The first state to choose this particular date as a holiday to be devoted to celebrations on the part of organized labor was Colorado. All the others have followed suit. Canada, according to the request among the earliest.

There is no indication of any cessation of the enthusiasm with which the holiday is observed. The impression which is made each year in the larger centres by the processions of the men engaged in the different callings has undoubtedly done not a little to make the general public realize what a powerful force organized labor has become. Fortunately, there has been no tendency at any time to celebrate in any but the most orderly manner. In this respect there has been a great contrast to the old May Day disturbances in Europe, and the cause has not suffered by reason of the fact.

And now the C.P.R. begin to promise that the Crows' Nest Pass will be the through route to the coast within a year. Sounds good to us!

A report appears in the Edmonton papers, this week, regarding the Turtle Mountain, saying that another big slide of rock occurred, doing damage to buildings and property. None of the residents of the town are yet aware of such an occurrence, and request that the drummer take another snooze!

On Saturday last the sent of customs was moved from Frank to Blairmore and has taken up respectable looking quarters in the Budd block. For some time agitation has been rife between the different towns of this section of The Pass for the establishment and centralization of this important government office, and the decision to locate in Blairmore meets with popular approval.

**Coopers Used Sixty Million Feet in 1911**

The value of the material used in the slack coopeage industry in 1911, according to figures prepared by the Forestry Branch Department of the Interior was \$1,405,702, or about \$130,000 less than the value in 1910. The amount of material consumed, as far as can be accurately determined, is estimated at 65,355, 190 feet, board measure.

Ontario leads in this industry with the production of 64 per cent. of the total number of staves 70 per cent. of the heading and 76 per cent. of the hoops. Nova Scotia, with a large proportion of fish barrels, was next with 29.25 and 20 per cent. respectively, of the total number of staves, heading and hoops. The other provinces

produce very limited quantities.

Imports exceed exports of \$135, 495 by \$194,829. White Oak

staves form an important part of the imports, numbering in all 7, 293,000, where as 2,768,000 were cut in Canada. The Canadian

supply of oak which alone is suitable for the manufacture of staves, is so nearly exhausted that this branch of the tight coopeage industry will practically cease in a few years.

The cost of the materials for slack coopeage averaged as follows per thousand pieces, \$6.91; heading (size) \$54.77; hoops, \$7.62. Figures on the cost of tight coopeage materials were not available.

**Alberta is First**

Edmonton, Alta., Aug. - Alberta, the youngest province in Canada, is the first to comply with the conditions of the Dominion act respecting juvenile delinquents, which will come into operation as soon as possible after the order is council and the provisions of the provincial attorney general are entered at Ottawa. Authorities on the subject of child training, including Judge Lindsay of Denver, Judge Meek of Chicago and Judge Adams of Cleveland, declare this will complete the best series of aid for the rescue and protection of children in force anywhere on the American continent.

The act, which was introduced into the Dominion parliament through the efforts of W. L. Scott, a barrister at Ottawa, and assented to in July, 1912, extends the principles that have been applied to the delinquent and neglected child in Alberta since the adoption of the Children's Protection act, passed by the provincial legislature.

The preamble of the Dominion act fully sets forth the spirit of remedial legislation in the interest of children, as follows:

It is inexpedient that youthful offenders should be classed or dealt with as ordinary criminals, the welfare of the community demanding that they should, on the contrary, be guarded against association with crime and criminals and should be subjected to such care, treatment and control as will tend to check their evil tendencies and to strengthen their better instincts."

Dissociating the child offender from all criminal fact is the primary idea throughout the act. The "child" applies to a boy or girl apparently or actually under the age of 16 years. This designation permits those who have authority concerning them to use their own discretion in regard to a child which the parents might maintain has reached its sixteenth year, but which may obviously be in need of such protection as the law gives, though it applies chiefly to children whose exact age cannot be determined.

The law provides for dealing with "delinquent children" in the courts where the proceedings are private. It is unlawful for any news paper to publish the name of the child or parent or guardian without special leave. Courts to be held where adult offenders are being tried and the child awaiting trial must not be placed in a jail or other place where adults are or may be imprisoned.

The children's court may be directed of the customary majesty and rigid formality, which usually attend the administration of justice in the tribunals of record. A provision of the act, dealing with this point, says: "The proceeding may, in the discretion of the Judge, be as informal as the circumstances will permit."

The testimony of a child may be received though not given on oath, but such evidence, uncorroborated, is not sufficient to convict a person.

Several means are provided under the act for the child provided to be a juvenile delinquent, but the same taken must in every case be that which the court believes to be for the child's own good and the best interests of the community. The child may be found or placed under protection either in its own home or with a suitable family, or committed to the charge of any duly organized children's aid society or the superintendent of neglected and dependent children.

It is also provided that a child over the age of 12 years may be committed to an industrial school, but it shall not be lawful to commit a child under 12 years, "unless and until" to quote from the act, "an attempt has been made to reform such child."

in its own home," or in the ways named in the foregoing paragraph.

Another section provides that the expense of maintaining a child in the industrial training school may be deducted from the parent or guardian in the event they are able to pay. The idea is to prevent any one from shirking his charge is intrinsic, in the hope that the child will be sent to an institution to be fed, clothed, and educated at the expense of the province. The penalty for an adult who, either wilfully or through neglect, contributes to a child's delinquency, is as high as \$500 a year in prison.

The Judge of a juvenile court is given the power of two justices of the peace or a stipendiary magistrate. The position is an honorary one and the selection will take into consideration the special qualifications of the person to be appointed for dealing with children. Probation officers have the same power as constables. The present system will be enlarged and improved, and probation and police officers being used more extensively than previously.

Arrangements are being made with two Protestant and Catholic institutions to care for girl delinquents. While as heretofore boy offenders will be sent to the industrial training school at Portage La Prairie, Man., with which the province has an agreement to handle the juvenile charges requiring reformation.

R. B. Chadwick, superintendent of neglected and dependent children in Alberta, is deeply impressed with the state of child legislation in this province, saying the problem is near a solution with the additional power granted by the Dominion act.

**Another Successful Year for Western Canada College, Calgary**

This well known Residential Day College for boys has just closed another very successful year. Over 140 boys between the ages of ten and twenty have been in attendance during the session, September 1911 to June 1912. Many of these students have written on the college flags and the matriculation examinations for the university.

The results of the latter are very gratifying, the head boy of the college passing very well in the McGill Arts Matriculation Examination.

The excellent work done in the Gymnasium and Swedish Drill Class reached a splendid climax at a public exhibition given in behalf of the general hospital, that was unqualified praise because of the fine bearing and finished action of every one of the sixty odd boys taking part.

The college continues its success in sending boys to the universities and to the various leading business houses and banks.

Though the present property is not permanent yet it has been decided to install a fan system of ventilation to ensure the flow of pure air. At the same time preparations for the sale of the present property and moving to the new grounds of 35 acres outside the city continue. During the year a number of the leading residential schools and colleges of Eastern Canada and the United States were visited and carefully studied. At present some of the best British Schools are being investigated. The College will need all the latest and best equipment, and no money will be spared to that end. Western Canada College is entering upon its 10th year; it is the oldest, the largest and the best known college between Winnipeg and Vancouver. It was founded before Alberta and Saskatchewan became provinces, its record of success in preparing for college and business is amply testified by the high places taken, the scholarships won and the testimonials received.

## The Picture

No "Played Fair" After All

By CLARISSA MACKIE

Ralph Evans lifted the drape from the easel and gazed long and earnestly at the picture. There was a little smile on his thin lips as he murmured a little to one near by.

"It was an excellent portrait of Justin Moore—a splendid likeness, nearly every one of the artist's friends. Justin was handsome, with a beauty of features that barely concealed a fiery, but the mouth was strong enough to justify the peering gray eyes, the nose foremost with its sweep of dark hair and the resolute chin."

As he stood there, his fine eyes meeting those of the portrait with a certain tenderness, he was reminded of Alice Moore. He could see her tall and slender, in her black draperies, eagerly tracing the well known features of her beloved, choking back tears of grief at the sight of the gray eyes and the winning curves of Justin's genial mouth.

"Young as you were, to drop as he thought of these things, Alice was young and beautiful, and he had loved her long and passionately. With that speaking likeness of her dead husband before him, he could not but feel that he had forgotten Justin? Could he, Ralph, ever forget Justin?"

"His heart answered 'No.' The door of the studio opened, and Alice Moore entered, looking not black draperies over the rug. With a quick, graceful gesture she turned back, and with a smile and a nod, she turned to the easel.

"How like him, Mr. H?" she questioned eagerly. "Without answering Ralph lifted his eyes and drank in the portrait with the keenness of her face. The soft, pure texture of her fair skin, the deep blue of her dark hair, the delicate coloring of her magnificent hair falling behind the smooth head and shoulders.

"It is ready for inspection—I hope you will like it," she said, and then she withdrew her hand from his and turned to the portrait.

"For a few moments she stood and stared before him. Then tears filled his eyes, and her gloved hands were pressed against her bosom.

"How like him, Mr. H?" she questioned eagerly. "Without answering Ralph lifted his eyes and drank in the portrait with the keenness of her face. The soft, pure texture of her fair skin, the deep blue of her dark hair, the delicate coloring of her magnificent hair falling behind the smooth head and shoulders.

"It is ready for inspection—I hope you will like it," she said, and then she withdrew her hand from his and turned to the portrait.

"For a few moments she stood and stared before him. Then tears filled his eyes, and her gloved hands were pressed against her bosom.

Her hand, deprived of its strength and even gentleness, it was the portrait of Justin Moore, with every trait perfectly emphasized.

Late that evening Ralph Evans went the portrait up to the handsome frame in Justin Moore's widow's room.

A week later he received a note from Alice Moore, and she wrote him a long letter. "Bring your violin and we will have some music."

Alice, pale and quiet with unutterable sadness in her beautiful eyes, she welcomed him in the library. His quick glance noted that Justin's picture had been placed on the wall, and the chair had been wheeled in front of it.

"You are not looking so well," he remarked gravely.

"I have long ago spritied," she confessed.

Evans smiled. A familiar acquaintance of Justin Moore's returned to him with startling suddenness. "A man," he said, "can't play his better best out of a piano."

Had he played fair? Her hand, as she pointed upon the table, told the knowledge showed him.

"Did you ever consider the difference between a living face and the pictured face?" she asked, and then she pointed to the portrait of Justin Moore.

"I have never," he answered, and then she pointed to the portrait of Justin Moore.

"I have never," he answered, and then she pointed to the portrait of Justin Moore.

"I have never," he answered, and then she pointed to the portrait of Justin Moore.

"I have never," he answered, and then she pointed to the portrait of Justin Moore.

"I have never," he answered, and then she pointed to the portrait of Justin Moore.

"I have never," he answered, and then she pointed to the portrait of Justin Moore.

"I have never," he answered, and then she pointed to the portrait of Justin Moore.

"I have never," he answered, and then she pointed to the portrait of Justin Moore.

"I have never," he answered, and then she pointed to the portrait of Justin Moore.

"I have never," he answered, and then she pointed to the portrait of Justin Moore.

"I have never," he answered, and then she pointed to the portrait of Justin Moore.

Frontier Days' Celebration Draws  
Thousands of People To Al-  
berta's Metropolis

The frontier days' celebration at Calgary this week is proving to be the greatest event of its kind ever held in Canada. It is estimated that fully 40,000 people have visited the city from all over the American continent, and all hotels are taxed to their fullest.

The opening feature of the Stampede was a military band parade held on Monday morning when a procession headed by one thousand "first Canadians" and representing trades unions and labor headed through the main streets towards the fair grounds. The procession was the largest ever witnessed on the continent, and crowds mounted to the roof and piazzas of the tallest buildings of the city in order to get a good view of the great parade.

At the fair grounds, besides the grand stand, a number of stands had been erected with seating capacity for twenty-five thousand, all of which were taxed to accommodate the great crowds, while many were obliged to occupy standing rooms around the fences for whole afternoon.

The steer, roping, bull-dogging, bucking-horse riding, fancy riding, fancy roping, etc., were the chief attractions, the bulk of the competitors being prize winners from Oklahoma, Texas and New Mexico, Alberta herself being very poorly represented, and as a result most of the prizes will go out of the province.

On Wednesday forenoon the arena was crowded to witness the great championship boxing contest between Billy Allen, the ex-champion, and Joe Bailey, the recent donor of the championship belt. The bout lasted but three rounds, at the finish of the third Allen taking the count from the knockout, thereby further fastening the championship title upon the redoubtable Joe Bailey.

Today's (Thursday) programme will begin with another great street parade, which will be witnessed by H.R.H. the Duke and Duchess of Connaught, after which the regular sports will continue at the exhibition grounds. The hotel hotel but three rounds, at the finish of the third Allen taking the count from the knockout, thereby further fastening the championship title upon the redoubtable Joe Bailey.

Monday's procession was several miles in length. Trades unions were represented by upwards of 1300 men, together with their respective floats. The Indians formed the most attractive part of the procession, exhibiting the handsomest costumes ever witnessed in Canada, bringing back to today representations of the great chiefs of the early centuries.

## Methodist Church District Meeting

The Financial District meeting of the Macleod district of the Methodist church was convened in Clarendon on Tuesday evening of last week, concluding its session at noon on Wednesday.

The chairman of the district, Rev. J. M. Harrison, of Clarendon, presided and the attendance was very large, including every ministerial member, also, a number of the district, and most of the lay representatives.

The usual business of the meeting was transacted with expedition and when the requirements of the several missions in the district came under consideration it was noted with much gratification that with scarcely an exception, they had raised the standard of local support, and in the case of Bellevue, a very difficult mission among the miners, they had voluntarily assured the active support of an ordained man.

Extended consideration was given to the problems associated with the work among the foreigners in the Crow's Nest Pass, where the work among the Italians has been given over to the Methodist church. Reports presented indicated most substantial gains in this peculiarly difficult work. Thanks principally to the splendid work of the two very capable and specially qualified men who are in charge, Revs. W. H. Irwin, at Bellevue, and W. T. Young, at Frank.

Visitors to the session were Rev. Mr. Marr, the recently appointed general secretary for Alberta for the Canadian Bible Society, Rev. C. H. Huestis, M.A., Western Secretary of the Lord's Day Alliance. The Macleod representatives were Rev. K. S. Bishop and W. G. Andrews.

## Macleod Presbytery

Macleod Presbytery met at Macleod, Wednesday, August 28, for its semi-annual meeting, at which the Home Mission reports was the main item of business. These fields were all well manned this summer, but owing to the scarcity of men, many of them will have to be without supply this winter. The Presbytery listened also to the reports of the commissioners to the General Assembly.

Among matters of business that came up was the settlement of the Lundbreck and Hillcrest question. It was decided to sanction the removal of the Presbytery boundaries from the latter having the work entirely in the hands of the Methodist church. A committee will look after the matter of property. For the present the church will be used by the Methodist church.

A church building committee was appointed to look after the interests of all the churches south of Lethbridge, where there has been difficulty in getting particulars regarding the title deeds.

When the question of vacant charges came up, some time was devoted to those in The Pass. The moderator in charge of Blairmore will be asked to urge for an early settlement, since it appears that a minister is available. Rev. Mr. Beaton, of Blairmore, was asked to get in touch with Little, to learn the conditions there, and to arrange for whatever work it may require.

## Murder At Calgary

Special Policeman Is Found Lying  
In Gore In The Railway Yards  
No Clue To Perpetrator.

Calgary, Sept. 4.—Special policeman Robert G. MacIntosh of the Canadian Pacific railway was murdered about 10 o'clock tonight, presumably by tramps in the C.P.R. yards.

MacIntosh was found lying in the shadow of some box cars about five minutes after the shooting, unconscious, with his revolver still tightly clamped in his right hand.

All chambers of his gun were loaded. The assassin's bullet entered the right side under the arm and passed through the body.

The unfortunate man died without regaining consciousness.

The police have absolutely no clue to the identity of the murderer.

MacIntosh was about 35 years of age and has a wife and two children in England.

## Special Rates

For Exhibitors

The growing interest in the International Dry-Farmed Products Exposition at Lethbridge, Alberta, next October, assures the largest exhibition of grains, grasses and root crops, farm machinery and implements ever held in Western Canada, and probably the largest of its kind ever held on the American continent. Applications for entry forms have been received by Chairman McNicol, of the Exposition committee from nearly every quarter of the globe, and advice through diplomatic sources are to the effect that nearly all of the South American countries, Australia, Hungary, Turkey, Russia and the United States will send federal exhibits. It is stated that the United States exhibit will eclipse anything that has ever been undertaken by the department of agriculture, while the Dominion of Canada will collect and stage an enormous sized exhibit of the products of the soil from the experimental farms and the fairs, and the provinces of British Columbia, Manitoba, Saskatchewan and Alberta will have exceptionally large and interesting displays.

Throughout Alberta and Saskatchewan great interest is being manifested, and in many sections the farmers have arranged for and carried out the spring and summer a system of plots, by which each man raises something different than his neighbor on one square rod, and pay particular attention to the product with a view to having a very best possible to be grown. In Saskatchewan the department of agriculture has been very active in encouraging the farmers to make an extraordinary provincial exhibit, as well as district exhibits, and the Saskatchewan commission, Prof. H. N. Thompson, has applied for 10,000 square feet of space, and secured notice of his requirements will, without doubt, exceed this in view of the large number of farmers who are preparing individual exhibits.

Manitoba is not behind to

any extent, for these are scores of grain growers in that province who are looking with wistful eyes at the premium list and making plans to capture the valuable farm machinery and implements offered. British Columbia is collecting the largest and finest exhibit it has ever planned to stage, and while it will not compete in many of the classes, being desirous of showing that courtesy to exhibiting states and nations, it will put before the eyes of the delegates a sight long to be remembered in its display of fruit, and the decorative work of its booths through the use of natural woods and minerals for which the country is famous. The exposition opens on Saturday morning, Oct. 16th, and every exhibit will have been judged and all prize-winners announced by that time. Exhibitors must be in place ready for judging on the evening of Thursday, Oct. 17th.

## Three Drowned Near Gainsford

Edmonton, Sept. 3.—Three lives were lost in inland lake, near Gainsford on the Grand Trunk Pacific railway west of the city, in a heavy squall, which sprang up on Sunday afternoon at five o'clock swamping the boat in which four Edmonton people were rowing on the lake.

The dead are: Robert D. Russell, formerly south side, and his five-year-old daughter Beulah and Mrs. Johnson, of south side, Johnson, who was the fourth party in the boat, was rescued by two Ruthenians who witnessed the tragedy. The other three did not come to the surface after sinking for the first time.
